

EECE.4810/EECE.5730: Operating Systems

Spring 2017

Midterm Exam Schedule

Your midterm exam will be a three hour exam held during the week of Monday, 3/6. After polling you to determine your availability, I have reserved three different blocks of time in three classrooms. *Please note that the room sizes were based on the number of students who said they were available during the times I listed—you do **not** have the choice of showing up to whatever exam time you want and assuming you'll get a seat.*

- On **Wednesday, 3/8, from 2-5 PM**, the exam will be in **Ball 206**.
 - Roughly half of you said you were available during this time. **If you are available to take the exam at this time, you MUST take it at this time.**
- On **Thursday, 3/9, from 9 AM-12 PM**, the exam will be in **Pasteur 411**.
 - Approximately 15 people are available at this time but not on Wednesday. **If you are unavailable Wednesday but available at this time on Thursday, take the exam at that time.**
- On **Thursday, 3/9, from 12 PM-3 PM**, the exam will be in **Ball 301E (ECE Conf. Room)**
 - This exam time is **only** for people who cannot make either of the first two times.
- **If you are unavailable at all 3 times listed above, contact me directly to schedule your midterm exam. You must contact me by Friday, 3/3.**
 - Please note that no exams will be scheduled on Friday, 3/10.
