The purpose of this evaluation is to provide a measure of the effectiveness and quality of classroom instruction. The results will be reviewed with your instructor, along with those of all others in your class, only after final grades have been assigned. You should not sign this evaluation or provide any information that would identify this as yours.

The questions that follow seek to assess your opinion of the course and teaching effectiveness. For each question you are asked to circle **only one answer**, with "A" corresponding to excellent, "B" to very good, "C" to satisfactory, "D" to poor, and "F" to failure, unless otherwise specified. The "NA" answer can be used when you are not able to respond to a question for some reason.
